**Argument in the Beecher-Tilton Case To-day.**

**Etc., Etc., Etc.**

**BEECHER-TILTON.**

**Continuation of the Argument.**

BROOKLYN, May 21.—The announcement that Judge Porter would close his address to-day had the effect of increasing the crowd in the court room. Over a hundred members of Plymouth Church were present. Porter began by referring to Beecher's testimony. He had testified that in an interview between himself and Bowen he had declared Tilton was an immoral man, unfit to conduct a great religious paper, and then Beecher communicated what he had heard about Tilton. This was all managed very artfully to create a false issue. The same effort was made in the case of Bessie Turner. Tilton knew that the insertion of a single improbability in the testimony would break down the poor girl's story. So Tilton inserted the story that Bessie said she had been taken from her bed screaming. This was thought sufficient to invalidate her future truthful statements. In an interview between Beecher and Bowen it was the former's turn to tell what Bowen said, although Bowen didn't say so. For Bowen didn't tell all he knew, being too wise to swear himself into a scrape. On the cross-examination Bowen acknowledged Beecher occupied half an hour in detailing Tilton's immoralities, so instead of contradicting Beecher he confirmed him. In one of the most essential points of the trial, Rev. Edward Eggleston also confirmed Beecher in this particular and corroborated the version of this story which Bowen denies. When Bowen went to Beecher he bore a letter, which, if Beecher was guilty, would have paralyzed him instantly, but Beecher was cool and regarded it as an act of a madman. Further, said the counsel, Bowen remained a long time under Beecher's roof that day. What was it engaged him? We leave it for you to answer whether that followed that meeting was not the sequel of the disaster to Tilton's misfortune. Speaking of Bowen's action regarding the Independent, counsel claimed that Bowen was mistaken in stating that he sent his son to the Free-laid House, for Tilton swears that hour after the time stated by Bowen he sent a note by Bowen to Beecher demanding his retirement from the pulpit. Passing on to the overthrow of Tilton from the editorial chair of the Union and Independent, counsel declared that Tilton believed Mr. Beecher was the cause of it, and set to work to trump up charges against him. He called in Bowen, Montfort and Carpenter, and the result was Mrs. Tilton wrote that letter to Dr. Storrs, in which she declared Beecher solicited her to be a wife to him, with all that word implies.

**Destructive Fire—The Grasshoppers**

KANSAS CITY, May 21.—A fire yesterday destroyed a block of frame buildings. Eight horses belonging to the American Express Company were burned. Loss \$10,000.

LEXINGTON, May 21.—The grasshoppers are increasing in number and destructive power. The ground traversed by them resembles the path of prairie fire. Reports from Liberty say not a vestige of verdure is left wherever they alight. Discouraging reports also come from Pleasant Hill, Holden, Sedalia, Chillicothe, Hopkins and other places in Missouri where the grasshoppers have appeared.

**WISCONSIN.**

**Republican State Convention, Etc.**

MADISON, May 21.—The meeting of the Republican State Committee has decided to hold the State Convention early in July.

LACROSSE, May 21.—Encouraging crop reports along the line of the Southern Minnesota railroad. There is no anxiety on account of the grasshoppers. The weather is fine. Wheat, oats, and other grain prospects are flattering.

**NEW JERSEY.**

**Wrestling Match.**

HIBERNIA, May 21.—The wrestling match for five hundred dollars a side took place yesterday between Richard Kennedy and Stephen McKinley. The latter won, they wrestled over two hours.

**PENNSYLVANIA.**

**The Fire Around Osceola.**

OSCEOLA, May 21.—One of the most destructive forest fires that ever occurred in that section is now raging all around the top of the mountain in near the summit of which Osceola stands. Early yesterday morning the chutes of the Philadelphia mine opposite town took fire from the sparks of a locomotive and the flames spread to the woods and soon reached the town. The Tiptop House was destroyed, the inhabitants hemmed in by fire and great consternation prevailed, and finally a train dashed into the depot, the women and children were placed in the cars and a successful trip through the burning woods was made to Phillipsburg.

**OIL TANK BURNED.**

PETROLIA, May 21.—Yesterday afternoon a fire broke out at Pithole Switch at a receiving oil tank and spread to the adjoining tanks. Before it was extinguished in completely consumed ten tanks with about five hundred barrels of crude oil, besides a lot of lumber. The fire is supposed to have been caused by a passing locomotive.

**ILLINOIS.**

**Storekeepers Arrested—Mrs. Lincoln's Insanity.**

CHICAGO, May 21.—J. S. Forsythe, storekeeper of Russell's distillery, Frederick R. Witte and George D. Phelps, storekeepers of the Lake Shore distillery, were arrested on charge of neglect of duty yesterday and held under bonds to be examined to-day.

Mrs. Abraham Lincoln was taken yesterday to the private Insane Asylum at Batavia, Illinois. Friends to her removal fifty-seven thousand dollars in Government bonds, she had secured on her person, were secured by her friends for safe keeping. Her insanity is not of a violent type.

O'Leary finished his three hundred and fifty-third mile last night and is thirteen hours ahead of time. He seems justly confident.

**IDAHO BOOTS.**

"Out West" folks are noted for their love of boots. A tall pair of boots is indispensable to a frontiersman's wardrobe. A pair of well-made boots is a necessity, and a pair of high-heeled boots is demanded by every high-minded mule climber. So Idaho Territory has determined to be represented at the Centennial by a pair of boots. To this end a pair has been made at Idaho City. They are supposed to be any boots ever worn. They are of fine leather, with gold-tipped toes and heels of gold. These boots are to be worn by the high sheriff on the streets of Idaho next Fourth of July. After the boots have been broken in by the sheriff they will be sent to Philadelphia for the exhibition of 1876. They are valued at \$100 in gold, and should be engraved on the outsole of the State they represent when Idaho is admitted to the Union.

**One of His Jokes.**

Artemus Ward was one day lying upon the sofa enjoying a cigar in the little office of his publisher, in New York, when a telegraph dispatch from San Francisco was handed him. It was from Mr. McGuire, of the Opera House, who inquired: "What will you take for ten nights in California?" Without a moment's reflection or changing his position, he wrote his reply in three words and handed it to the messenger, as follows: "Brandy and water.—A. Ward." This was not all he did take, however, for soon afterwards McGuire engaged the showman, and he lectured in California with extraordinary success. The little dispatch—a \$10 joke—was published in the San Francisco papers, and set everybody to laughing and anticipating the author's arrival.

The Episcopal Convention of the Tennessee Diocese convened at St. James's church, Bolivar, Wednesday, the Right Rev. C. F. Quintard, Bishop of the Diocese presiding.

Mrs. Lincoln manifested more decided symptoms of insanity yesterday, and attempted to poison herself but her design was frustrated by the druggist. She was taken to Batavia last night.

There is great excitement at Norristown, Pennsylvania, relative to the murder of Miss Whitley, on Tuesday, and Thomas F. Curley, a boy of sixteen, employed in the family, and a tramp named Herpst have been arrested on suspicion.

Bishop Jagger's reception by the citizens of Cincinnati at the Burnett House, Wednesday night, was a fine affair and largely attended. The larger drawing rooms were profusely decorated with flowers, and a sumptuous lunch was spread.

By the capsizing of the yacht Mattie, yesterday forenoon, near the lime kiln crossing of the Detroit river, K. C. Barker, Fred Dudgeon, Frank Webb and a boy named Miller were drowned. Only Mr. Barker's body has been recovered.

The eighty-seventh general assembly of the Presbyterian Church of the United States convened in the First Presbyterian Church of Cleveland yesterday. Four hundred and forty delegates were present. The session is expected to last ten days.

While two young men, from Bunker Hill, were standing in the flour-mill of Miller Brothers, at Brighton, Ill., the floor of the second story fell, killing one instantly and severely injuring the other. Several other persons standing near by were slightly hurt.

J. P. Sanbourn's herd of short-horn cattle was sold at De Kalb Park, Chicago, yesterday. The principal sales were Duchess Huron, for \$2,000, and the Duchess of Springfield, \$1,500, to John R. Craig, of Edmonton, Canada. Crystal Queen, fifth, for \$1,025, to T. Nickman, of Ashland, Mo.

In the Cincinnati water works investigation the only things of importance evolved were the facts that Mr. Johnston, the present Mayor, and Mr. Shelbaker, Chief of Police, had borrowed money from Mr. Kramer, the Receiver, and used it eight or nine months; the larger \$5,000, and the latter \$2,000.

Last Monday W. D. Alexander, a planter, residing in Fulton, Tenn., sixty miles above Memphis, on the river, was shot and killed by a tenant named M. M. Johnson, at the same day Al. Lea, a popular merchant of Fulton, was shot and fatally wounded by N. C. Nelms, whom Lea had arrested on a charge of horse stealing, and who, after shooting Lea, made his escape.

A letter received at Quebec from the light-house keeper at the southwest point of Anticosti Island says that on the 23d of November last the brigantine Orient ran ashore seven miles from that island. The captain and seven men were frozen to death in the rigging, and six men perished in attempting to reach the shore. Joyce, the chief mate, and Moore, a deck-hand, landed safely, but were badly frozen.

The General Assembly of the Presbyterian Church in the United States, known generally as the Southern General Assembly, met yesterday at Dr. Rutherford's church, corner Eleventh and Pine streets, St. Louis. The assembly represents all the Southern States and Illinois, Missouri and Ohio. A large representation is present. After being called to order by Dr. L. Girardin, the moderator of the last session delivered the opening address. Dr. M. D. Hoge was elected moderator.

The Rev. Erwin Howe, assistant editor of the Western Christian Advocate, fell dead of the heart disease at 3 o'clock yesterday afternoon, at his office in Cincinnati. The deceased has been in the editorial department of the Methodist Book Concern for about twenty years. He was the author of several religious books, and for years prominent among the Sunday school workers of the West. He was fifty-one years old.

The Memphis water works were sold at auction yesterday for the benefit of the first mortgage bondholders and were purchased by W. P. Wallace, President of the New York Guarantee and Indemnity Company. Chas. Keep, manager of the Holly Water Works Company of Lockport, New York, and Wm. Goodman, vice President of the Third National Bank of Cincinnati, each of which institutions held a large amount of bonds. The price was \$170,000, being a little more than half of the cost of the works.

A Charleston, West Virginia, special says that Judge Smith has dissolved the injunction restraining the removal of the State capital to Wheeling, but suspended the effect of the decree nine days. The Governor attempted to remove the archives to the river yesterday, but was notified by Judge Smith that he would not allow him to violate the injunction. The Governor protested, but finally obeyed obedience to the court. The case will go to the Court of Appeals.

The fiftieth anniversary of the American Tract Society was held in Chicago, Tuesday night, in the Second Presbyterian Church, corner of Michigan avenue and Twentieth street. The secretary's report shows that nearly eight million pages of publications have been distributed during the year. The total receipts were \$652,372; expenses, \$650,187. During the last half century the society has printed 2,230,327,388 copies of publications. Its total receipts have been \$15,577,529. Addresses were delivered by Rev. Wm. Gillies, of Scotland, Rev. S. H. Tyng, of New York, and others.

The Boston Evening Journal states that Abraham Jackson, one of the most prominent lawyers of that city and the former President of the Safe Manufacturing Company, disappeared from the city last Friday, and the investigation of his affairs since then, has developed the most astounding dishonesty on his part, involving a heavy loss to many persons for whose funds he acted as custodian. He has been noted as a conservative, going man, whose counsel was sought by investors, and who, as the guardian of trust property, stood second to none in the confidence of the community. It is said a \$100,000 deficit in his accounts has already been discovered, and the further the investigation proceeds the more complicated the affair becomes.

An attempt was made to burn the Shenandoah or Riley's Hotel, at Pottsville, yesterday. It was discovered that coal oil and lighted matches had been thrown in the windows. In a few minutes after the above discovery was made, a second alarm was sounded in another direction, and a dwelling house and carpenter shop were burned to the ground. While the firemen were working on an adjoining building a third alarm was given up town. A lumber yard had been fired and partially destroyed. The citizens were very much alarmed. Vigilance committees and committees of safety have been arranged. Charles Hays was arrested, on suspicion of being connected with the incendiary fire, and was held in \$1,000 bail to answer at the next term of the court. The fires on the mountains continue, and heavy winds have spread them rapidly.

Mexican cavalry have been stationed at various points between Camargo and Matamoros. General Cortina had a difficulty with Senor Trevino, living near Reynoso. Trevino was informed of the theft of cattle, found the thieves, recognized them as the servants of Cortina, and rode up and informed them that they must go with him to the Alcaide. They fired on him. He returned the fire, killed one, wounded another and took prisoner the head man of one of Cortina's ranches. Cortina went then with 150 men and demanded the prisoner of the Alcaide, but could not obtain him. He hung the Alcaide, and afterwards shot Senor Trevino. Cortina has received an order to report at the City of Mexico for duty, but he declined to obey, stating that his resignation had been forwarded to the proper officer.

A fire broke out yesterday at the Moshaman Lumber Company's Mills, west of Osceola, Pennsylvania, and 15,000,000 feet of lumber were burned. The wind was so strong that fire brands two feet long were thrown to almost all parts of Osceola, and fires broke out in every quarter. All the public buildings, except the Catholic and Methodist churches, were destroyed, and two hundred houses were driven to the race course, where they were surrounded by the fire on all sides. The fire department of Tyrone left at two o'clock with their steamers and hose carriages, but could not reach Osceola on account of the railroad track being burned. The railroad between Osceola and Powellton on either side was one blaze of fire. The members of the Tyrone company fought their way through, and rendered all the assistance possible. About two hundred houses are standing yet. Some half dozen were burned between Osceola and Powellton. Powellton was not destroyed.

The session of the Long Island Diocese Episcopal Convention in Brooklyn yesterday, received the report of the committee on Christian education, which was read by Dr. T. Stafford Browne. The report urges the establishment of a system of Episcopal schools in which church children may obtain the religious culture not possible in the public schools of the State. In the public schools, the report says, there is an admitted or compulsory absence of all exposition or enforcement of a definite faith. Now, while there is loud boasting in some quarters of this, a happy achievement, it is known abroad and stigmatized, with some justice, as the American system. Being professedly a Christian country, it is true the attempts occasionally made to put a religious gloss or veneer over the secularism of our school system by reading a few verses of the Bible without note or comment. But such a mechanical act, unaccompanied by any culture or conscience, or dogmatic teaching, can never relieve the matter. The report uses strong language in denunciation of the public schools and urges that the popular schools shall be made Christian. A resolution is appended to the report urging the establishment, by every possible effort, of numerous diocesan institutions of acknowledged excellence.

The Sentinel has come into the fold in good shape.

The German printing steal is an excellent place to begin economy.

West Virginia is threatened with internecine strife over the removal of the capital from Charleston to Wheeling.

If the Democrats in the Council really wish to economize, there is the German printing steal. That is an excellent place to begin. Three or four thousand dollars can be saved on that alone.

MEMPHIS has had to sell her water works, which are of the same pattern as ours. They were sold on account of failure to pay the interest on the mortgage bonds, and went at about half their cost.

OSCEOLA, Pennsylvania, was the scene of a disastrous fire yesterday, which resembles the one at Oshkosh. Two hundred houses were burned and twelve hundred people made homeless. Among other property destroyed was timber to the extent of fifteen million of feet.

"LONE HORN," who drew from the President the only acknowledgment of the existence of the third term idea he has made, is evidently larger in his own estimation than in the eyes of his red brethren. Red Cloud indignantly said Lone Horn was "no big Injun at home;" he himself had whipped him several times.

Poor Mrs. Lincoln, who has been adjudged insane, made an attempt to commit suicide yesterday, prior to her removal to an asylum. Her mind has evidently been affected ever since the death of her husband, for her singular actions and fear of poverty are inexplicable except upon the ground of mental weakness. The prejudice excited by her acts should be allayed, now that their cause is so evident.

THE St. Louis Globe-Democrat made its appearance yesterday in the shape of the old Democrat. As soon as the necessary mechanical arrangements can be made it will appear as a seven column quarto, the size, probably, of the Republican. The new paper has a large field and extensive resources, and doubtless will recover the prestige and influence held for some years by the Democrat. The name is an unwieldy one and ought to be changed to either Globe or Democrat alone, as soon as the public has found out the consolidation.

THE French apparently get excited over very little things. A cable dispatch says a great sensation has been caused by an article in Figaro suggesting that France postpone her revenge on Germany for a hundred years. What there is in this to create a sensation and to form the subject of a Cabinet discussion is not easily seen. If France would adopt it, disband her armies, and set about cultivating and enhancing the arts of peace for a hundred years, it would be the preventive of war for years. But France is not likely to do anything of the kind and few Frenchmen would seriously consider it. The immense standing armies of the various powers menace the peace of Europe. They are maintained at great cost and can not be kept idle long. If a fair cause for fighting does not come up, a pretext for a quarrel will be made by some one and the others will be drawn into it. People can't make such preparations for war and expend such large sums of money and so much human strength without trying to accomplish something by it. An armed peace is a very dangerous thing.

MESSRS. MACINTIRE and Valentine have brought suits for libel against the Sentinel Company and J. E. Fawcner, claiming \$100,000 damages from each. This will bring the case into court very soon, and will give a fair chance to establish the truth. The Sentinel defends its action in publishing the affidavits, and whines that the liberty of the press is being attacked when these suits are brought against it. Decency should have restrained its publications in detail, if regard for character did not; but it can not shield them under the pretext that they were judicial or even public proceedings. We understand that they have not even been laid before the Board, or in any way presented except through the columns of the Sentinel, and if that is so the Sentinel is responsible for its statements, just as it is for all statements affecting character, except in cases of judicial inquiry. The main value of the suits, however, is the opportunity it gives for a legal trial in which the witnesses can be examined thoroughly and where false statements will constitute perjury, as they would not before an examination by the Trustees.

A PETITION is being circulated among business men requesting the Council to establish back stands at the State House, on McNabb street, and on three sides of the Court House, to be occupied between the hours of seven A. M. and seven P. M. The hack and express stands about the hotels are great nuisances, and seriously injurious to merchants in those vicinities. In all cities places are provided around the public buildings and grounds where hacks and wagons can stand. It works no hardship to the owners for all are treated alike and one has just as fair a chance to secure employment as another. It is time the Council began in some other way than the lavish expenditure of money for party purposes, to recognize the fact that this is a city, and to establish some much needed changes, such as this regulation of vehicles, and the forbidding of stock running loose in the city. This may not please some people, but those who accept city life must accept its restraints and inconveniences as well as its benefits. If they want country privileges let them go to the country.

HON. JESSE D. BRIGHT, who died in Baltimore yesterday, was a very remarkable man and for more than twenty years ruled the politics of Indiana as completely as Senator Morton did for the ten years preceding the last election. He was the autocrat of his party, his word was law, and from the highest position in which it could place him he dictated his orders, rewarded his friends and punished his enemies. Eminent as a leader of men, he made his power felt from boyhood in whatever he undertook. He was almost intuitive in his perceptions of human nature, and his force of character at once impressed the stranger, while the charm of his manner when he chose to exert himself was almost magnetic in its fascination. In person he was a handsome man. His frame was active and lithe, of medium size but more than ordinary strength; his eye was keen and to the last maintained its brilliancy; in fine he was one to be noticed and whose bearing was always such as commanded respect. Mr. Bright was born in Chenango county, New York, in 1812, and was brought to this State when a boy by his father, David Bright, who settled in Madison. There the family, consisting of three sons and a daughter, grew up. He studied law, but was never noted as a lawyer, though he attained at one time a fair practice and was chosen Probate Judge. He entered into politics, however, being elected State Senator from Jefferson, then a Whig county, through the medium of a split in the party, and from that time dated his prominence. In 1842 he was elected Lieutenant Governor, running with James Whitcomb, and two years later was chosen United States Senator, to which place he was re-elected in 1850 and 1856. He was the youngest of all the United States Senators, with one exception, and his rank was a very fair one, though he stood by the side of the great Senators, Clay, Webster, Calhoun, Benton, Douglas, Seward, and others. For several years, during the administration of Fillmore, he was President of the Senate, and virtually the Vice President of the United States. Early in 1862, before his third term expired, he was expelled from the Senate on account of a letter written to Jeff. Davis, then President of the Confederacy, recommending to his favorable attention the inventor of a new gun. This expulsion was a terrible blow, and when the Democracy carried the State he vainly sought a re-election, if only for the rest of his term, as a vindication. Failing in that

he removed to Jeffersonville, and soon after to Kentucky, when he had owned a farm for many years near Carrollton. His only entrance into public life again was as a member of the Kentucky Legislature, where he served one term with signal ability. A few months since he removed to Baltimore, where a favorite daughter had long resided, and it is safe to say that had not death interrupted his career he would have again been heard of in national politics. His disease was rheumatism of the heart, from which he had suffered a long time, and his last sickness was of six or eight weeks duration; but his vitality was so great that he resisted attacks under which many a strong man would have succumbed. Mr. Bright is the first of his father's family to die, his brothers, Michael G. of this city, George M. of Kentucky, and a sister, Mrs. McIntire, of Madison, surviving him. He leaves a wife and several children, all grown.

## STATE NEWS.

Henry Rief, of Lawrenceburg, has been indicted for the murder of John Smith, on the 13th inst.

The senior class of Indiana State University contemplates a trip to Mammoth Cave on or about the first of June.

Frank Hupp and John Frederickson were very seriously injured by a fall of the elevator in the South Bend Iron-works on Tuesday.

Fred. Lampkin, of Cannelton, was riding horseback along the road the other day, when a dead tree fell across his horse's neck, killing the animal instantly.

A boy named Woodard was instantly killed at Bloomington last Monday by falling under the wheels of a wagon upon which an immense log was loaded.

At Mansfield, Parke county, last Sunday evening, a party of eleven young people, seven ladies and four boys, while taking a boat ride were spilled into the river, by foolishly rocking the boat, narrowly escaping drowning.

A Vincennes Frenchman named Millet put two bullet holes through a colored gentleman whom he found crawling into his house through a back window, and whom he suspected of too much miscellaneousness with his family.

There seems to be a musical revival in many parts of the State, and new societies are springing up. The Mendelssohn Society at Bloomington is a prominent instance. A musical institute, to continue two weeks, will begin at Monticello, June 1.

One day last week the residence of Robert Ludlow, near Laconia, Harrison county, was destroyed by fire, together with all the household furniture and \$100 in paper money. His smoke house and a considerable quantity of bacon was also burned, and but for the exertions of several neighbors, two large barns, filled with hay, corn and wheat would have been burned also.

## Jeff. Davis as He Is.

[Memphis Cor. Chicago Tribune.] After the sermon at St. Lazarus the vestryman came down the aisle with the contribution box. While I was fumbling in my pocket for the fractional currency, I happened to note him closely. He was slightly above the average height, of erect figure, and bore himself with what might have been termed a military carriage, but that somehow it was too spruce, and suggestive rather of the volunteer martinet order. His iron-gray hair is carefully pushed off a tall, high forehead. He had keen observant eyes, an aquiline nose, high cheek bones, and his lower face was covered with iron-gray beard, short-cropped and pointed. His face might once have expressed fine nervous energy; but his habitual expression, evidently—certainly his expression then—was, in every lineament, that of the spared monument, whose life and energy ended in the past, and who was still content to live, and found very grateful to his vanity the incense offered by the other spared monuments to his praiseworthy fortitude in enduring with equanimity all that a spared monument endures with so much equanimity. As we passed out my companion introduced me to him. He was Jefferson Davis, ex-President of the Southern Confederacy, and evidently as harmless a specimen of the class of retired gentlemen, who, for the admiration of the devout female worshippers, officiate as pillars in the church, as one would find anywhere. He was apparently in good spirits, taken as to apprehend that in your correspondent he had encountered an "interviewer," and after exchanging the ordinary civilities, excused himself. But even an interviewer of the veritable post-graduate school, after being here a few days, could have little reason to complain of Jefferson Davis. In all my intercourse with people of all sorts here, I had not once heard his name mentioned; and, but for seeing him at church, might have forgotten that he resided here. He has no more part in the affairs of this day, in this city, than if, when he ceased to have part in the affairs of life, he had been quietly interred, instead of being left to figure as a spared monument. Memphis, notwithstanding the present depression, is quite a Yankee sort of a city, and with Yankee-like thrift and foresight, the merchants and business men are making ready to profit by the good crops of gold, and give so little thought to Jefferson Davis as to have people anywhere to a spared monument. To have interviewed him must needs have been very like interviewing a tombstone; and tipping my hat, I took my leave.

## Health and Fashion.

[Science of Health.] Not until we deal conscientiously with nature as we do with tradesmen shall we, as individuals, be entitled to rewards of merit. We ask for a load of good wood, pay the market price for it, get the worth of our money and have the satisfaction of warmth from the fire it makes. Suppose the dealer knew we could not pay for it. He would not be likely to give full measure of the best quality. The dainty bits of lace, jet ornaments and plumes, rosebuds and velvets composing a hat are very becoming to some faces. The dressy hat is a price; it takes money to pay for it. The little lady wishes to look stylish, pays the price, and is satisfied and happy until the fashion changes. She desires health and elasticity of step, buoyancy of spirit. Could they be purchased at Stewart's or of Worth, millions of dollars would roll in to the credit of their bank accounts. Alas, poor child of fashion! Gold can not buy for you the dewy freshness of a vigorous life. The sunshine and raindrops are gifts. Roses in cheeks, cherries in color of lips, come from within. The price is service, and faithful service, too, under the direction of the most generous and most exacting physician, Mother Nature. Her rewards are sure, her punishments certain. There can be no appeal to a higher court, no amendments to her divinely appointed "constitution." Will you enter a willing student? Are you willing to measure your life by her rule and compass and square? No? Then there is no hope for you.

## Three Flowers.

J. H. ALEXANDER.

Three bonny flowers once had I,  
Looked up with eyes of blue,  
Sweetly to th' heavens sweet,  
And eager for the dew  
That fell upon them softly  
In the morning fresh and clear;  
And oh! they promised perfect forms  
As ever man did rear.

I watched them with the eyes of love,  
And saw the promise grow—  
The shapely grace, the glow of hue,  
The fragrance and the dew,  
A pearl of shell-like purity.  
The ground whereon they played  
The colors of the rainbow,  
In the sunshine or in shade.

But first there came an east wind  
That tipped my tallest fair;  
It lingered for a little while,  
Then fell and faded there;  
And next there came a hoar frost  
That stole within my gate,  
In spite of all my watching  
That early was and late.

And soon it laid another low,  
And nought but dust remained  
Of all the wondrous beauty,  
With pride that I had trained;  
And then there came a cancer-worm  
And smote my flowers dead;  
Ah me! it shrank before my eyes,  
It withered in an hour.

A heap of common earth—no more—  
My garden plays lies bare;  
The wind sweeps o'er it freely,  
But ah! the sweetest of old  
My lonely hours that cheered of old  
No longer wanders by;  
And if on others' flowers I look  
I can not help but sigh.

—[Good Words.]

"And Solomon slept with his fathers." Which the New Orleans Republican thinks was a piece of domestic economy which reflects the brightest credit upon him.

The philosophy of Confucius still survives. When Ah Lo, of Los Angeles, was pressed to pay a debt, he remarked sententiously, "If no have, how can?" which is indubitably so.

Red Cloud says he is always ready to smoke the pipe of peace with his pale face brethren, if they will only furnish him a little better tobacco.—[New York Commercial Advertiser.]

The muskets furnished to the Indians in trade by the Hudson Bay Company are of the old flint lock pattern, the barrels being so thin that the owners are often seen straightening them across their knees.

It is said the frauds in repairing mail-bags were first discovered by a contractor's boy appearing at school with the seat of his trousers patched with pieces of mail-bag, from which the rivets had not been extracted.

There is a letter held for postage in the Lebanon, Kentucky, post office, with the following superscription: "Lexington, Ky. bethel church, colliery, in the charge of the preacher wat his name is i do not know."

Cincinnati's musical festival is a great success, though it is a source of poignant grief to the directors that the hall is not located near a pig killing house, in order to secure a big effect in the choruses.—[St. Louis Republican.]

While Mrs. Abby Wheeler, of Rockland, Me., and old lady of 67 years, was holding a pot, Monday, for a man to drive into the ground, the beetle slipped and struck her a severe blow, tearing off her scalp. She can not recover.

The designs for the new foreign postage stamps have been changed. They will be the same as those already in use, and the words "foreign postage" will be omitted from the stamp. They will be ready on the 1st of July.

Colonel Forney is soon to return home. Thus it ever is with man—facing needless horrors. Forney will leave that lazy, luxurious life and return when there are just 25,000 reasons why he shouldn't.—[St. Louis Republican.]

It is announced in London that a fac simile of the first edition of Bunyan's Pilgrim's Progress is about to be issued without any interpolations, and therefore without wood cuts. It will represent as faithfully as possible the original edition.

Mark Twain, General Hawley, and Rev. Dr. Burton participated in a spelling match at Hartford, Connecticut, the prizes being offered by Mark. General Hawley went down on trisyllable, Mark Twain on chaldron, and Burton on calicoes.

price of a sitting will be \$10 a year, besides whatever premium an auction may bring for choice places. The society will be independently Congregational.

The average American boy will make a great fuss and complain bitterly that it will spoil his clothes, if asked to bring in an armful of wood for his mother; but give him a gun, and he will crawl half a mile on his stomach, through a ditch with four inches of water in it, to get a shot at some ducks.

An enterprising Englishman has discovered the foretop-sail of Lord Nelson's flag-ship Victory in the sail loft of the Chatham dock-yard. It has ninety shot holes in it, the main-top-sail has sixty holes in it. The name of the sail maker is visible on the canvas, "Miller, contractor, Portsmouth 1805."

Lick, of California, has other woes than satisfying those whom he is trying to give his money to. A San Francisco doctor has sued him for \$53,000 for medical attendance rendered in twenty-two years. If Mr. Lick has been getting doctoring at that rate, it can not be wondered at that he thought best to make his will.

A new religious vagary in California is a sect of "Child Christians," who interpret literally the passage: "Except ye be converted and become as little children, ye shall not enter into the kingdom of heaven." They endeavor to feel and act like children, playing childish games and adopting an infantile manner of speech.

The Irish language is fast disappearing from the speech of the people in Ireland, and there are not many of the native youth who can even understand it. The Archaeological Association of Ireland has asked the Commissioners of Education to "preserve the Irish tongue from being lost," and have it regularly taught in the schools.

Mr. L. H. Carlyle, a New Orleans actor, was recently engaged by an amateur dramatic association at Kirksville, Mo., to help them bring out "Richard III." Mr. Carlyle has now a deep scalp wound, seven inches long, inflicted by the maiden sword of Richmond, an untamed amateur named Dick Pickler, who "got excited" and "identified himself with the character."

## Going Over to the Catholics.

[New York Cor. Buffalo Com. Adv.] The number of Protestant young ladies of elevated social position who have voluntarily embraced the Roman Catholic religion of late in marrying has created considerable excitement and given life to a sort of genteel slang, expressed in two words—"Catholic brides." There have been many stories told of determined daughters and heart-broken mothers and fathers, and the stories were not without their effect. Since Easter four New

  9. Singing of the Doxology by the Entire Assembly.
  10. Benediction by the Grand Chaplain.
- The marshals will meet at Condit's Block at 1:45 o'clock.

A Reasonable Conclusion.

One Dr. W. H. Elphinstone, with a hatful of medical diplomas, according to the Journal, is leaving contributions because of his losses from the Oshkosh fire, and that paper rather scouts at his claim of being among other things, a graduate of the University of London. It is reasonable to think if Dr. E. is a member of the State Medical Society of Wisconsin, Secretary of the Society of Apothecaries of England, a member of the Royal College of Surgeons of England, an M. D. of the University of London, and has served as surgeon of the Second Battalion Eighteenth Foot, that his medical abilities would secure him pecuniary cross sufficient for his wants, and thus avoid the degrading necessity of begging about the country.

The Kaufman Case.

Moritz Kaufman has been granted a new trial by the Supreme Court, and will be returned from Michigan City at once. In the lower Court the charge of the Judge to the jury instructed them that the defendant having introduced evidence to establish an alibi, he failed to cover the whole time when the crime may have been committed, when they were warranted in paying no attention to his evidence. The Supreme Court held this ruling an error. An alibi is a legitimate defense, and if the evidence touching it was sufficient to raise a reasonable doubt of the guilt of the defendant, the minds of the jury, it should have been considered, although the alibi does not cover the whole time during which the crime was committed.

Amusements.

On Saturday night Ristori, supported by an Italian combination, appears at the Academy in one performance. On Monday and Tuesday evenings of next week the original Tennesseans will give quaint entertainments, and Friday and Saturday come the popular Duprez & Benedict's Minstrels, the first time in two years. This is the oldest and in many respects the strongest minstrelsy traveling. At the Metropolitan a strong combination is still playing nightly to crowded houses, the Fraiger Family and Farren Sisters leading in the attractions.

\$100,000 Debt Suits.

Thomas MacIntire, Superintendent of the Deaf and Dumb Asylum, and Ezra G. Valentine, one of the teachers of the same institution, in view of the Sentinel publication charging both with illicit and secular relations with some of the pupils, last evening filed a \$50,000 damage suit (each) against the paper and John E. Fawcett. The strong legal firm of Harrison, Hines & Miller and Porter Fishback & Porter were retained for the prosecution, and the matter will be pressed to trial in the Civil Circuit Court at the earliest opportunity.

Fires.

The Fire Department had two "runs" last night, first to the corner of Maryland street and Virginia avenue, caused by a lamp explosion in the Great Western Dispatch building. No damage. The second was caused by incendiaries attempting to burn the Star Line freight office, near the Union paper and John E. Fawcett. The fire being applied to the northwest corner of the interior had been ransacked. Little of value was taken, and the damage from the fire is easily replaced.

Trichina Spirituosa.

To the Editor of The Evening News.  
Terrible as is the trichina spirals, it is far less dreadful in its consequences to society than the trichina spirals, not because it is less fatal in its attacks, but because it is less common in the human family. It is comparatively simple in its operations, while the other is complex and exceedingly deceptive. The first is nearly as plain as the nose on a man's face and as simple and painful as the toothache or the colic. The other is a cruel, pleasuring emotion in the patient while it is fastening itself upon his vitals. He fancies he is not only rich, but witty, wise and brilliant. He feels so very comfortable that he has no idea of the danger that awaits him. It allows him to revel in happy delusions for a time, but is inexorable in the cruelty of its punishment when the sad reality banishes those happy illusions, crushing him in the tortures of delirium tremens.

For convenience, this kind may be called the big trichina; the other, the little trichina. The latter is taken by eating hog; the former by making a hog of oneself, and is also epidemic. The little trichina kills quicker when it gets a fair start; but it only kills the body, while the big trichina kills both soul and body, or what is worse, after killing the body, consigns the soul to never-ending death.

As the spiral form of the trichina in a gun gives the bullet the revolving motion, so it stands to reason that the spiral form of the worm of the still imparts to the whiskey which runs through it a similar quality, making the drunkard reel, stagger, revolve, and finally tear his way through the toughest society into the dungeons. Just now the papers are talking a great deal about "drunkards," just as if there was any straight whiskey. True, many persons "take it straight," but it's all crooked nevertheless. It would pass a law compelling the whiskey rings to run it through straight tubes, perhaps the drunkards wouldn't have so much crooked traveling to do to arrive at the end of their roads. That would be economizing space, if nothing else, and might be a money and labor-saving advantage to the community.

The little trichina are the smallest kind of snakes that bite. They are probably the same species that, moved and seduced by the instigation of the devil, drove the hogs into the sea, in the early age of the four-legged swine. These little serpents can scarcely be seen with the naked eye; but when the eye is clothed in a microscope, can be seen quite readily. They work diligently in the muscles never coming out of their comfortable quarters to stir themselves in a man's boots, or a woman's stockings. Legions of them co-operating together, take a man down almost as quick as would the cholera or a tiger. They don't stop to amuse their victims with pleasing illusions. They scorn hypocrisy.

Not so with the big trichina—the giant sort, the anaconda or boa-constrictor kind, the rhinoceros stripe, the behemoth species, or the devil's imp. They beguile, delude, charm and fascinate until the victim becomes pliable as clay in the porter's hands, and then, as the scene changes, the delusions vanish, and to real torment is added horrible visions of snakes, demons, monsters and the most terrible creatures known to man.

Dignity of a Pilot.

[Mark Twain in June Atlantic.]  
A pilot in these days of the now unfettered and entirely independent human being that lived in the earth. Kings are but the hampered servants of Parliament and people; Parliaments sit in chains forged by their constituency; the editor of a newspaper cannot be independent, but must work with one hand tied behind him by party and patrons, and be content to utter only half or two-thirds his mind; no clergyman is a free man and may speak the whole truth regardless of his parish's opinions; writers of all kinds are hampered servants of the public. We write frankly and fearlessly, but then we "modify" before we print. In truth every man, woman and child has a master, and worries and frets in servitude, but in the day I write of, the Mississippi pilot had none. The captain could stand on the hurricane deck in the pomp of a very brief authority, and give him a superior orders while the vessel backed into the stream, and then the skipper's reign was over. The moment the boat was under way in the river she was under the sole and unquestioned control of the pilot. He could do with her exactly as he pleased, run her when or whether he chose, and she was to obey him. His judgment, said that, and that was that. His movements were entirely free; he consulted no one, he received commands from nobody, but promptly resented even the merest suggestions. Indeed the law of the United States forbade him to listen to commands or suggestions, rightly considering that the pilot necessarily was to be trusted to handle the boat than any one could tell him.

or unknown. So say those who have been there. Perhaps all this is premonitory of the augmented suffering that awaits the impatient drunkard in a future state. But there is a balm in Gilead. To escape the torments of the most fiendish trichina, quit drinking alcohol in all its forms, and avoid the terrors of the little trichina, quit eating hog, except it is thoroughly cooked, and then carefully throw it over to the dogs, unless it happens to be first-rate ham. A Daring Feat.  
[Cincinnati Commercial.]

People who were in the vicinity of Fourth and Main streets yesterday afternoon, enjoyed a free show in the way of a daring feat, the feat of a First Presbyterian church spire.

Mr. S. R. Weston, the champion steeple climber of the city, was employed to make some repairs to the tin sheeting toward the top of the spire, and to put a new point on the lightning rod; and as a preparation for the work placed a line of ladders from one of the high windows to the top of the hand surmounting the high structure. In this dangerous undertaking he was watched by hundreds of people. To place the ladders in position and secure them, he had for the most part to go in advance and haul them up after him. This was done in starting on the ascending side to side with the motion of the elevator, and with a man upon it in peril, the people looked up and shuddered. Reaching the top, he tied a rope about the ring under the large wooden moldings, secured the top of his ladder, and hauled up another one. Then he climbed up the ladder, then up the pole which supports the hand, then up the smooth pole to the dizzy height where are the iron rods, with gilt stars on the ends, indicating the points of the compass. Here he carefully stepped about, and tied more ropes, and let down a line and drew up another ladder. Some thought Weston had asked his life for the modest feat, but he did not. He was standing on his feet, with his knee braced against the pole, and relying on his nerve. The last ladder hoisted was hooked to the top of the hand, and on it Weston mounted and tied the top. He was at the top of the spire, a height of 175 feet above the ground, and he was a man upon it in peril, the people looked up and shuddered. Reaching the top, he tied a rope about the ring under the large wooden moldings, secured the top of his ladder, and hauled up another one. He was standing on his feet, with his knee braced against the pole, and relying on his nerve. The last ladder hoisted was hooked to the top of the hand, and on it Weston mounted and tied the top. He was at the top of the spire, a height of 175 feet above the ground, and he was a man upon it in peril, the people looked up and shuddered. Reaching the top, he tied a rope about the ring under the large wooden moldings, secured the top of his ladder, and hauled up another one. Then he climbed up the ladder, then up the pole which supports the hand, then up the smooth pole to the dizzy height where are the iron rods, with gilt stars on the ends, indicating the points of the compass. Here he carefully stepped about, and tied more ropes, and let down a line and drew up another ladder. Some thought Weston had asked his life for the modest feat, but he did not. **CITY NEWS.**

The Evening News has the largest circulation in the city, and is the most desirable medium for reaching all classes.

Marion county has 28,925 children over six years of age and under twenty-one.

Justice Schmitt's Court is closed by reason of the absence of the official in Louisville.

John Palye, an aged man, died of elephantiasis (big foot) at the City Hospital yesterday.

The jury in the McCaslin perjury case gave him two years north. There is one more to follow him.

B. N. Johnson has taken out a permit for the erection of a twelve thousand dollar brick and stone dwelling, on the corner of Pennsylvania and St. Clair streets.

Mark Kaiser, the accomplished violinist, who played so acceptably at the Wednesday evening concert, has been called to Mobile to play for a concert Monday night.

And now Perry Bly says he was acting under instructions when he got in his work so effectively on election day, and credits his deception to Republican pressure. Whew!

Ella Dalton has instituted suit against the New York Life Insurance Company for \$7,000, being the amount alleged to be due on the policy of her husband, George, who died in 1872.

The residence of J. Hines, 783 North Delaware street, was entered by burglars last night, who looted the family to deeper slumber with chloroform, ransacked the pantry, and walked off with the old gentleman's boots and money.

The residence of Mr. Jacob T. Wright, on College avenue, was entered at an early hour this morning and some wearing apparel secured by the intruders, who were frightened off before doing any further mischief. Entrance was effected through a window in the rear part of the house.

The Episcopalians will hold a mission service in the old Metropolitan theater at half past seven o'clock Sabbath afternoon. Rev. E. A. Bradley, of Christ church, will officiate. If the audience that night attends this place will turn out Sunday. Mr. Bradley will have no cause to complain, and some good may be done.

The suit for slander of R. J. Nolan against Dan. Davy, of the No. 4 Fire Company, was commenced today in Judge Howard's Court. The alleged slander consists in Davy having made some remark about a stranger man being seen at Nolan's house at a late hour of night, which was construed to reflect on the chastity of his wife, and hence the suit for \$5,000 damages.

**The Charges Against Mr. Dowling.**  
As heretofore intimated in The News, Rev. W. W. Dowling, the founder of Bethlehem church, on Fayette street, filling its pulpit occasionally, and for many years closely identified with the Sunday School work of the nation by editing and publishing the widely circulated "Little Stories," "Morning Watch" and "Laurel Wreath," was summoned before a church committee last night, charged with improper intercourse with one of his employees, a young girl. Mr. Dowling, after a consultation with President Burgess, declined to be present at the preliminary examination, preferring, as he expressed it, to let the prosecuting witnesses tell their story untrammelled by his presence. Two printers in his employ, Root and Fox, are the arguists who have seen so much, and they have told a story which is so false, which makes the situation dark for the accused. This forenoon a News reporter called upon Mr. Dowling, and found him calmly accepting the situation, and with no "statement" to lay before the public, but he felt confident that truth would yet triumph. The result of last night is locked in the bosom of the committee, and will so remain until the preliminary comes off. Circumstances are against the accused, to use his own expression, but where there is one believing this accusation, there are twenty who will not take stock in it.

**A Woman Shot.**  
At Broad Ripple a colored baridan, Mrs. Nancy Inman, and also in the neighborhood is Gilbert Justice, a blacksmith. Some days ago the Inman family was dispossessed and the property sold under Sheriff's sale, Justice becoming the purchaser, and this engendered bad blood and a disposition on her part for revenge. Yesterday she repeated a visit to the old place and was warned away by the blacksmith. She attempted to retaliate by drawing a revolver, and he countered with a double-barreled gun loaded with shot, striking her face, shoulder, arm, and in fact the whole body, besides lodging four or five in the abdomen. Last night she was brought to the Surgical Institute, and to-day is suffering considerably, with a tendency to inflammation of the bowels—in which case she dies. Fully fifty shot struck her, and a number hit her horse. This forenoon to a News reporter she asserted that Mr. Justice once before attempted to kill her, and that yesterday she made no effort to secure her revolver, which had been left in the wagon, until after he fired the first load. The blacksmith, after firing the gun, voluntarily surrendered himself to the Justice of the Peace in that district, and was placed under bonds, to await the result of her injuries. This woman and husband has long been a nuisance at Broad Ripple, as the Criminal Court records testify.

**The Courts.**  
In Judge Perkins' room the close of the recent Municipal case is approaching, as is also Christmas. The damage suit of Thomas Brooker against Isaac Scott, before Test, resulted in a verdict for the defendant.

In room No. 3 the appeal case of James E. Franklin against W. W. Wright, was in hearing.

In Judge Howard's court the jury in the case of J. S. Apple against Jesse Jones, administrator of the Walpole estate, returned a verdict for \$2,153 in the plaintiff's favor. The case of Ridgeway vs the city et al, taken on appeal from Glass, was set for trial in this court today, but postponed on account of the necessary absence of plaintiff's counsel.

Before Mayor Caven, John Burris and John Brown were drunk. Mary Lee was acquitted of being a wanderer. Samuel and Bridget Rosenthal, provoke on Barney Smith, continued. Mollie Chole and Laura Wagoner were adjudged guilty of provoke. Henry Hart assaulted George Stuner, and was assessed \$20.00. The cases pending were Barney Smith, provoke, Ella Clay and Thomas Logan, assault on Henry Clay.

**Killed by the Cars.**  
This morning about 8 o'clock Mrs. Carter Cox, a middle aged lady, was caught on the Union tracks, near East Market street, by an I. B. & W. freight, and crushed so that death intervened within an hour after removal to the Surgical Institute. The lady was walking along the tracks at the time when two trains were approaching, and she stepped from the one on to meet her fate by the other. Edward Lynch, an eye witness, and who aided in caring for the unfortunate lady until her death, reports no switchman upon the freight, which was backing at the time. It is said that there had been a collision, but been saved. The deceased has children by a former marriage living in Tipton county, and a young daughter by the second in this city. She but recently removed to Indianapolis from Jamestown, and was the wife of a man convicted and sentenced last fall for robbing an I. B. & W. freight car in the village. Her remains were taken to Hedges, and will be inquested by Wallace and Fuller when these worthies can be found.

**I. O. O. F.**  
The sessions of the Grand Lodge, I. O. O. F., closed yesterday afternoon, and an adjournment was made until the annual communication in September. A proposition was made to change the representation of the subordinate lodges, giving each lodge with 100 members or less, one delegate, and an additional delegate for every additional one hundred membership, not, however, to exceed three delegates in all. A resolution was passed, congratulating P. G. M. Job B. Eldridge upon having reached the age of fifty years membership; also one instructing the representatives to the G. L. U. S. to aid in the amendment of the organic law, permitting the admission into our Rebekah lodge of the daughters of Scarlet Degree members, who have arrived at the age of 18 years and upwards.

**Grand Larcenists.**  
A gentleman of color, answering to the name of Jesse R. Clark, yesterday morning appropriated to himself a gun and some clothing, the property of John Vanderman, residing a few miles southeast of the city, which he brought here and disposed of. The weapon was recovered at a loan office, and the clothing found on the person of Clark, who had no defense to make when arraigned before the Mayor, and accordingly he was committed to await Grand Jury action. Thomas J. Jenkins acknowledged to the theft of a \$5 pair of pants from Thos. Irwin, and expressed a willingness to make all amends, but as the Court could not compromise the case after that manner, Thomas was committed in default of bail.

**That Shooting Scrape.**  
Mention was made in The News of last week of a shooting affair which occurred near the Arsenal on the night of the 12th, in which Henry Clay a colored man was shot and seriously wounded by one Geo. French, who until yesterday has eluded arrest. In a conversation with French this morning he acknowledged having fired the shot but claims that he was forced to do it to protect himself and sister, whom he alleges Clay insisted following and annoying. The prosecuting witness has sufficiently recovered to appear in court to-day and still carries the ball in his neck, where it first lodged. A preliminary hearing is being had before Mayor Caven to-day.

**199 1-2 Pounds.**  
"A Traveller" in to-day's Sentinel pitched into the Union Depot police, especially the one weighing 199 1/2 pounds, whom he charged as ordering him out of the Depot at midnight, in a ruffianly manner. The attenuated officer Arnel is the 199 1/2 pounder, and 12 o'clock, he says that night, before last, at the depot, he was ordered to get out of the depot, unless he had a ticket, and was going away on the morning train. This man, having no ticket, quietly left, and that was the last of him until this now! in the Sentinel.

## THE TYPE WRITER.

**Greatest Invention  
OF THE NINETEENTH CENTURY.**

Every One That Examines It Wants It.

**WHAT GOVERNOR HOWARD, OF R. I. SAYS:**

GENTLEMEN—We have now had the Type-Writer about a month, and are entirely satisfied with it. There can be no doubt in regard to its usefulness, when it is used in the advertisement of the machine, originally, it had little faith in it. An examination surprised me, but not so much as the practical working has. We have no trouble whatever in working it, and it is a most constantly in operation. I think that it must rank among the great inventions of the century. Very truly yours,  
**HENRY HOWARD.**

## Mad Dogs.

Within the past twelve hours two dogs having every indication of being mad, were killed on North Noble street by Officer Wonders and partner. The first was foaming at the mouth and snapping at passers by, and the animal shot this morning at 71 North Noble street, was endeavoring to bite his master, who escaped him with much difficulty. As hot weather approaches the necessity of muzzling animals of the canine species is very apparent and a proclamation to that effect from the Mayor would be in order.

## The Jim-Jams.

John Brown, reached this city yesterday from Muncie, and got on a glorious drunk, which resulted in his arrest, and he is now at the station house with a well defined case of jim-jams. The poor fellow begged piteously for whisky and morphine, being specially addicted to the latter, and had in his possession, when arrested, an empty bottle labeled morphine.

The popular nine per cent. loan being made by E. B. Marundale for George E. Bissell & Co. of Hartford, is now being had in sums of \$3,000 up. The loan may run for ten years, or may be paid in \$1,000 installments at any time. The security required is unencumbered city property worth double the amount of loan, in any of the leading cities of the State. The interest is payable at the end of each six months. Persons desiring to build may obtain one-half the value of property including improvements. No life insurance required, and no red tape. o

## LOCAL ITEMS.

The best chance, probably, ever offered in Indianapolis for the masses to save money, is at the great clearance sale of the German Dry Goods Store, No. 20 East Washington street. About \$40,000 worth of desirable goods, embracing full lines usually kept in a first-class establishment, are being closed out at what they will bring, regardless of cost. The clearance is not for the purpose of making room for new goods, but to discontinue the business. Those who think that "a dollar saved is a dollar earned," will do well to lay in their supplies at once. For the benefit of working people the store is kept open till 9 p. m.

## BUSINESS NOTICES.

### Time After Time.

We are told by a certain class of dealers, after their attention has been called to the fact that the baking powders they are selling put up short weight, and consequently the manufacturer is using them as their agents to defraud their customers. "We don't care if they are short; a can of baking powder is a can of powder; besides, the customer don't know it, and as long as they don't find fault about it, we won't," ask for Dr. Hedges' Champion, which is put up full weight, and then the customer never fails to do what it is recommended to do. It always gives satisfaction. Less quantity is required to give the same results. Grocers sell it.

Read what Mrs. Johnson, of Spencer, Indiana, has to say about the Cocoa Remolins.

Mrs. W. N. Hedges & Co., SPRINGFIELD, OHIO.

Gentlemen—You say in your Receipt and Reference book, that you would be glad to have "a certificate from any one who thought that your preparations had merit in them." I must say that I have found your Cocoa Remolins an elegant hair dresser. It so far exceeds any other article of the kind that I could not be persuaded to change. Respectfully,  
Mrs. JOHNSON.

## LACE POINTS AND LACE SAQUES.

THEY NEVER WERE SO CHEAP.

The long cold season has caused a great decline in the prices of laces, and you can now buy as good a Lace Point for \$12 as cost last season \$20, and others in like proportion. We have just bought the largest stock of these goods we have ever shown, and now offer some nice BATAVIA, and see them, whether you wish to purchase or not.
